## Education

- 2011-present **PhD in Biostatistics**, *Johns Hopkins Bloomberg School of Public Health*, Baltimore, US.
- 2005-2009 **Bachelor in Genomic Sciences (LCG)**, *National Autonomous University of Mexico (UNAM)*, Cuernavaca, MX.
- 2002-2005 **High school**, *ITESM Campus Cuernavaca*, Cuernavaca, MX, Grade 97.8/100.

## PhD thesis

- title *Developing single-base RNA-seq methods and software to understand neuropsychiatric disorders and more.*
- advisors Jeffrey T. Leek and Andrew E. Jaffe.
- description The goal is to develop statistical methods and software that can enable researchers to differentiate as much as possible the sources of variation observed in RNA-seq while minimizing the dependance on known annotation. Thus allowing researchers to correct for technological variation and study the biological variation driving their phenotype of interest. Then apply these methods to further our understanding of neuropsychiatric disorders using the Lieber Institute for Brain Development data collection.

## Honors and awards

- 2011 Awarded CONACyT Mexico scholarship for PhD studies outside Mexico.
- 2009 Honorable Mention for bachelor studies at LCG-UNAM.
- 2005 Best high school average: awarded ITESM system 90% scholarship for college studies, declined to join LCG-UNAM.
